Report of the Superintendent of Schools

To the Superintending School Committee and citizens of the Town of Greenwood.

I herewith submit my fifth annual report of the schools and school property of this town.

We were fortunate in being able to retain all of our teachers. It is impossible to build a strong teaching force unless teachers are retained from year to year. All of the teachers have had experience and it is very pleasing to report that each teacher is taking a real interest in helping to maintain an efficient school system.

The registration for the fall term was on an average with that of recent years. The attendance on the whole has been very satisfactory. Because of the co-operation of the parents, the problem of truancy has been reduced to a minimum. Practically all of the absences have been due to illness.

The Health work has been carried on this year under the direction of the State Field Nurse, Miss Ruth Woodward. This project was partially financed by an operetta given at the Town Hall by the pupils of the Locke Mills school and from other sources.

The textbooks are in fairly good condition, but new books will have to be purchased to replace the worn-out ones, supplementary reading material will be necessary for the lower grades, and new geographies will be needed in the Seventh grade. On the appropriation granted from year to year, it is possible only with the strictest economy, to supply the school needs.

Through a fund given by the State, several books were added to the small library at the Locke Mills school.

Because of the reduction in the appropriation by the Town and a decrease in the State School Fund, it was necessary to make a drastic reduction in the salaries of teachers and conveyances.

Through the funds furnished by the Civil Works Administration milk has been provided each school day to meet the needs of 20 undernourished children. Enough funds have been secured to carry this project through the remainder of the school year. It is expected that Miss Kathryn Williamson, a nurse from the State Department of Health, will be in town within a short time to check up on the children who are malnourished and who have defective teeth and tonsils.

The following school buildings have been thoroughly renovated inside: Rowe Hill and Richardson Hollow. The wood shed has been shingled at the Greenwood Center school. Minor repairs were made at the Patch Mountain school. The Tubbs and Greenwood City schoolhouses need painting inside and out and the wood shed at the Tubbs schoolhouse should be shingled. Through the medium of funds obtained from the Civil Works Administration another room is being added to the Locke Mills school building. The building needs painting and the old section of it should be thoroughly renovated inside. It will be necessary to install a new heating plant at this schoolhouse before next fall. This plan can be carried out without increasing the amount of appropriation for all school purposes.

Following are statistics regarding the teachers:

School	Teacher	Exp. Salary
Locke Mills Grammar	Mrs. Louvie Coffin	7 yrs. \$17 00

YOU Can Help Bring PROSPERITY

In Your Community

First, by doing your buying, so far as possible, at home where you earn most of your money. Your local merchants own property and are interested in the welfare of your community. They are the largest taxpayers.

Second, by investing and depositing your money locally. It is the local bank that extends credit to individuals, merchants and manufacturers, making it possible for them to increase their business, which results in increased prosperity for this section. The local banker knows the needs of this locality better than some banker in a distant city.

This bank is a new bank, organized by public spirited citizens of this section and owned by them. Local citizens compose the Board of Directors. It is here to serve this section, and if you buy at home and deposit at home, you will have done your part to help bring prosperity.
